

The background of the slide is a dark, teal-tinted industrial scene. It shows a worker in silhouette, wearing a hard hat and safety gear, standing in a foundry. In the background, there are large industrial structures, possibly ladles or furnaces, and a bright orange glow from molten metal. The overall atmosphere is industrial and professional.

# E-LEARNING

Manufacturers of Foundry Grade Pig Iron  
and Ductile Iron Pipes

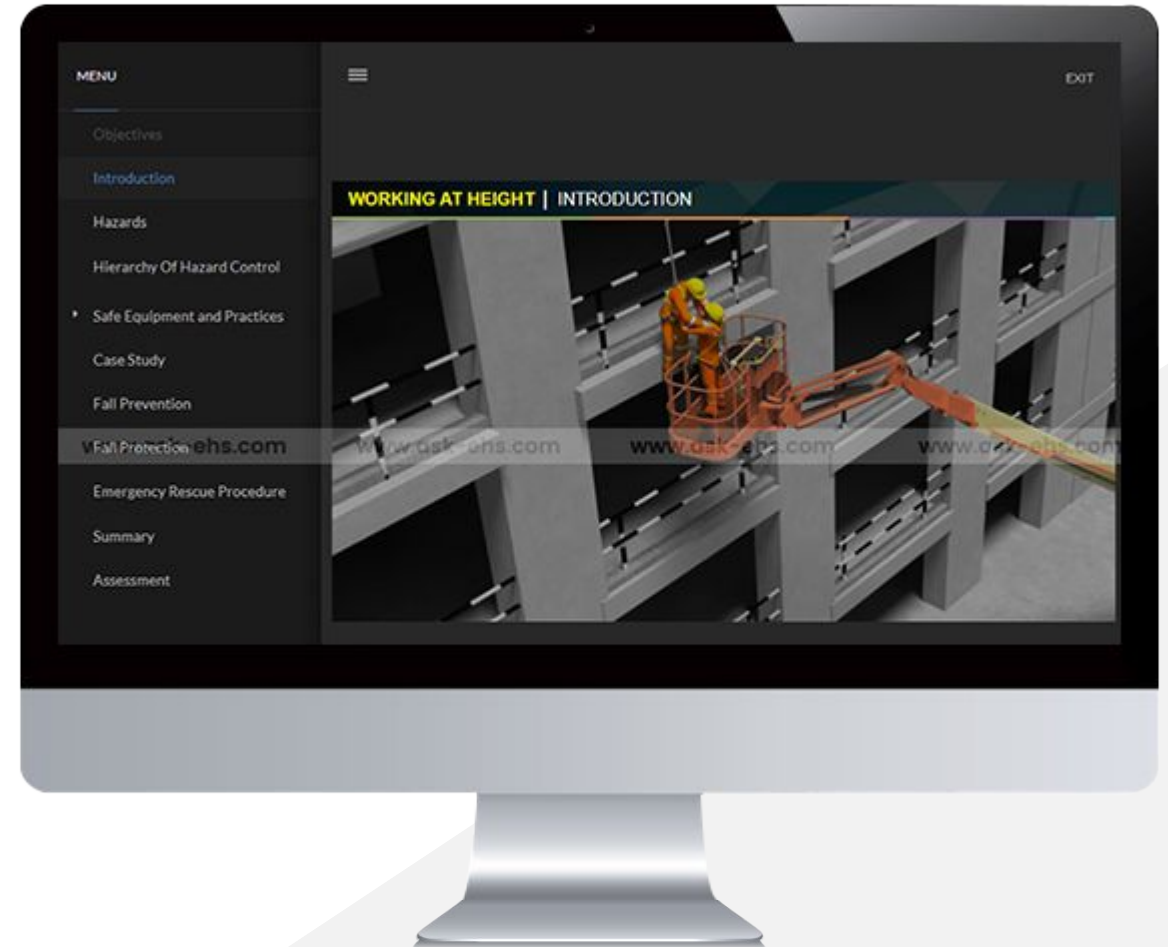

# CUSTOMIZED E-LEARNING PROGRAMS

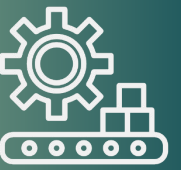

**5 universal eLearning modules customized to suit the organizational targets**

Stay Vigilant | Prepared | Aware

**Ensure trainings in COVID-19 to maintain high safety performance for adherence to global standards**

# IMPLEMENTATION CHALLENGES

- With restrictions of people gatherings and safe distancing, work persons couldn't be called over for training sessions
- Immediate solution was to implement online learning at their prevalent unit

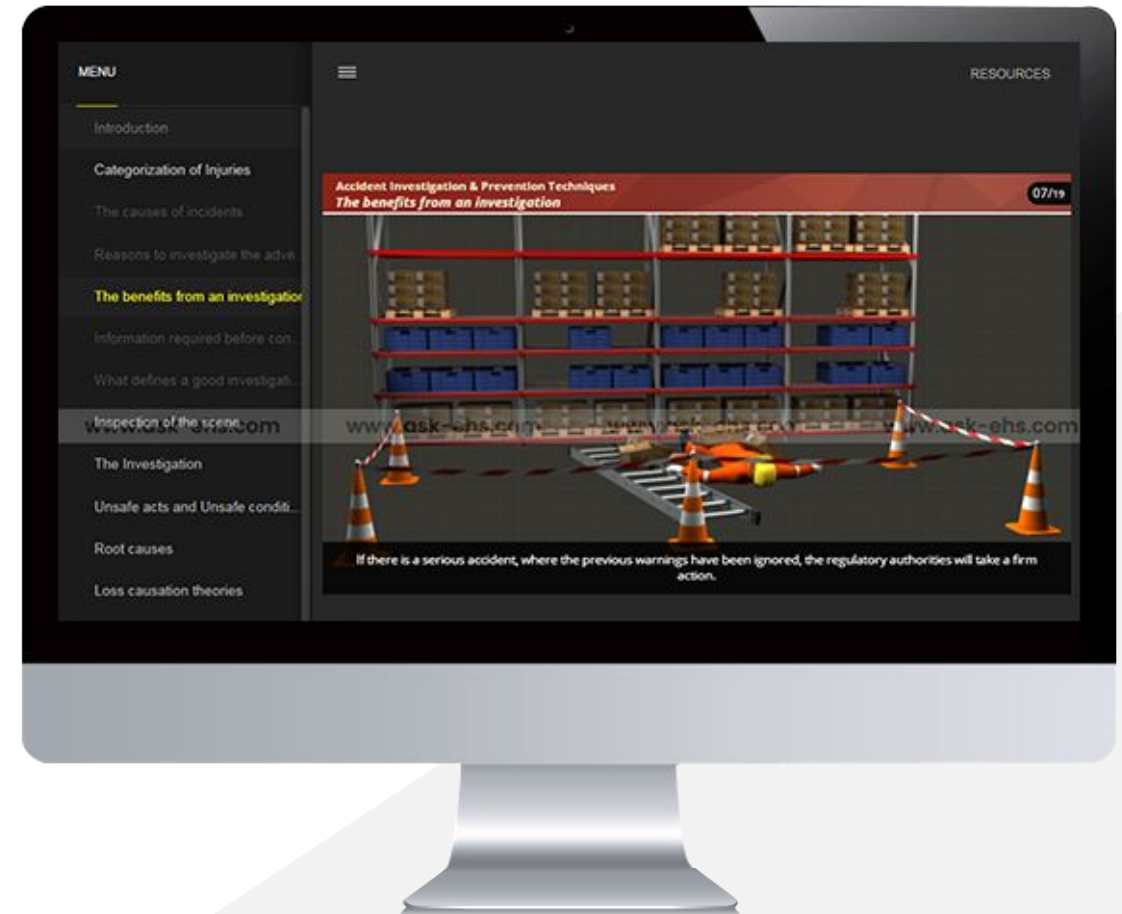

# ATTAIN LEARNING EFFICIENCY

The HSE head overseeing the operations of the unit wanted to implement trainings on the following 5 topics:

- Working at Height
- Confined space entry
- Road Safety
- Incident Investigation methodology
- Electrical Safety

# BRIDGING THE TRAINING GAP

## ASK-EHS SOLUTION DELIVERY

- 5 industry-specific and highly impactful eLearning programs on customer's LMS.
- Taking these courses on subscription, not only served the purpose of training their workforce remotely but would also provide a detailed report to the administrator

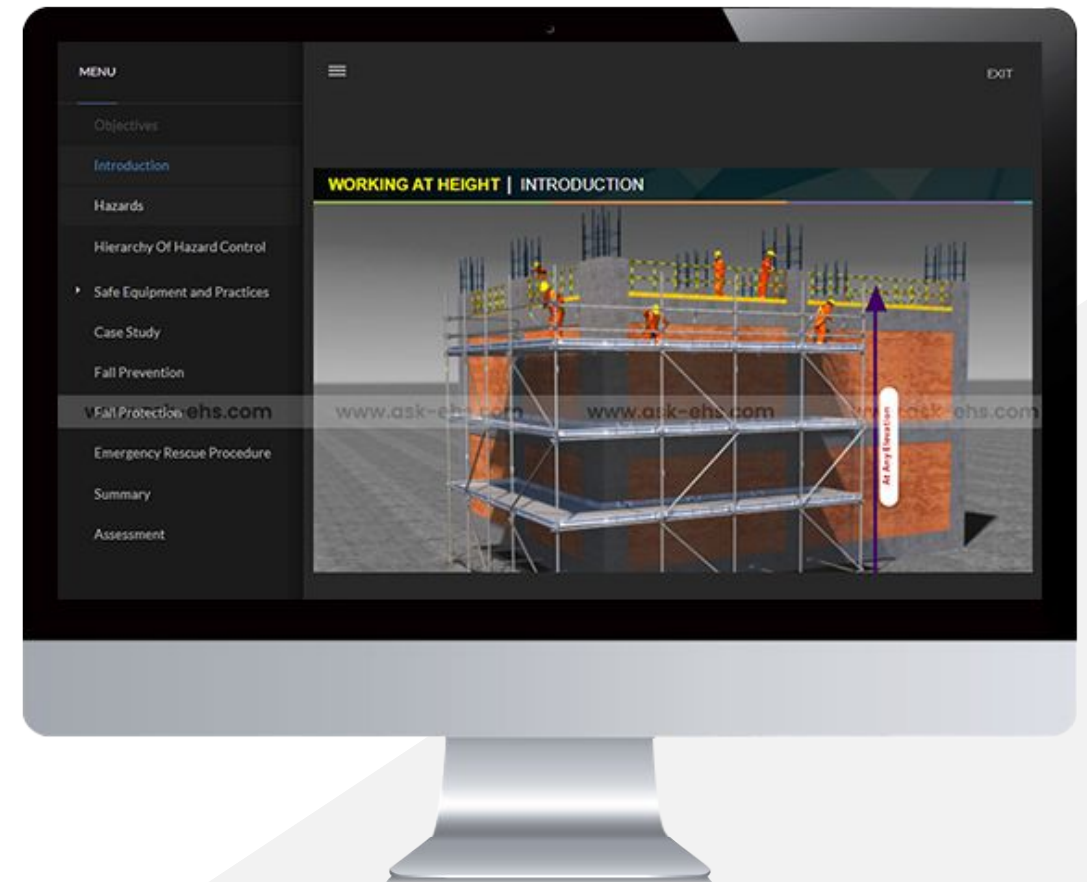

## KEY FEATURES

- Met 95% of their training targets
- Incorporated requested customizations & developed modules parallel to the exact requirements
- Initial training was provided to 100 users - courses were comprehensive & compelling with the visual aid of 3D Animation

# RESULTANT BENEFITS

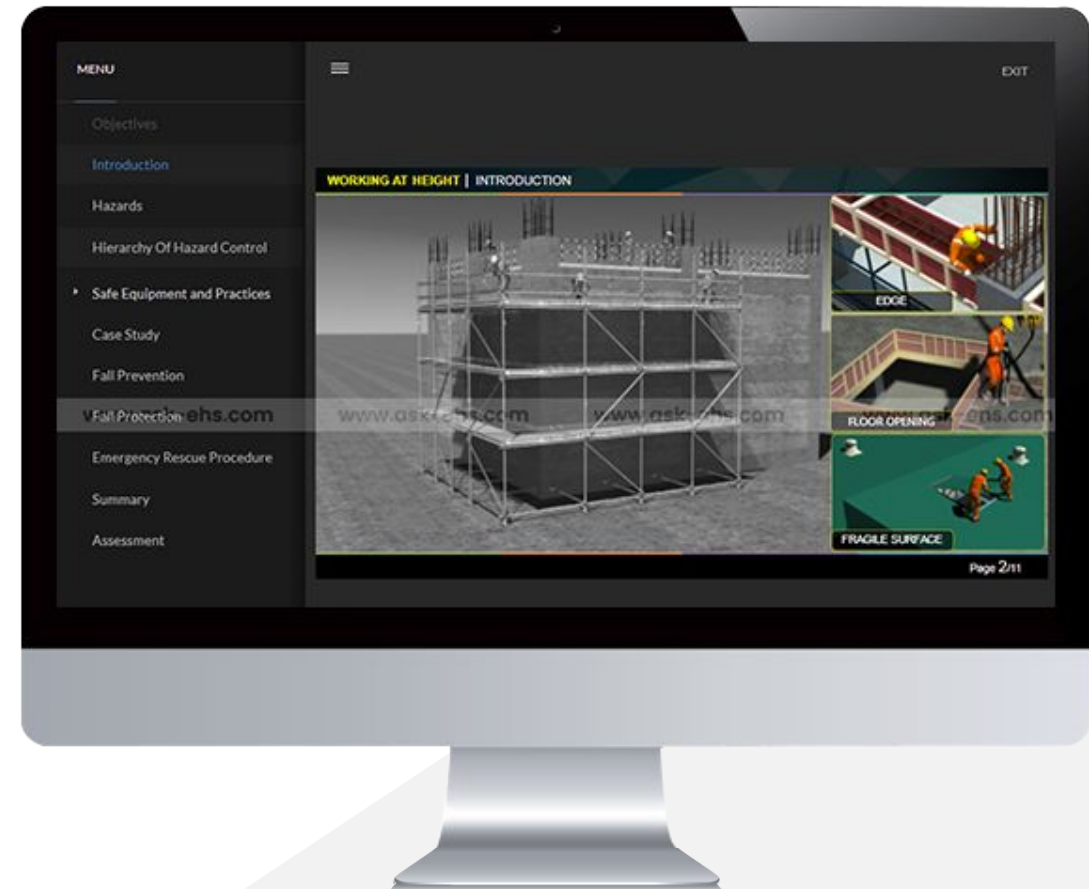

- 5 compelling, industry specific and highly impactful eLearning programs were run on our LMS – assigning training programs, imparting them accurately and getting relevant information
- Courses customized slightly to meet their training requirements
- Safety animated movies explaining complex processes seamlessly
- Complete administrative control over the training programs with detailed insights

# RESULTANT BENEFITS

- Understanding the impact of training through accurate assessments
- Flexible training medium: could be taken on a desktop, Mobile or a tablet
- Administrator generating click-ready reports
- Easy to navigate Learner Dashboard where trainees could take the assessment & download their own certificate upon completion & passing
